ULTRA IRON OUT

FOODSERVICE DISTRIBUTORS

Ultra Iron Out is a buffered acid sour that neutralizes all traces of detergent or break alkali. It also contains ingredients designed to combat iron and rust stains. It promotes complete rinsing and thereby enhances the brightness of colors and whiteness of whites. Regular use of this neutralizer prolongs fabric life by bringing it back to its natural pH level. Ironer scorch may be eliminated when this neutralizer is added to the pre-rinse cycle.

DIRECTIONS FOR USE

Directions for Use:

Program dispenser to add correct amount of neutralizer with pre-rinse fill. After all items of liquid system are set, run test load of badly soiled and stained linens to observe remarkable cleaning. Check for alkali or acid residue and adjust break or neutralizer as needed. See your chemical representative for specific laundry handling instructions.

**Please consult your BENE KEITH sales Representative or call 817-877-5700 for additional use directions.*

GENERAL PRODUCT INFORMATION

Description: Concentrated Sour and Iron Out

Safety: Corrosive. Keep product stored in original container, in an upright position, with container tightly closed. Wear protective clothing, gloves, and eye and face protection.
