

FRYE CLEAN & BOIL OUT

Use Frye Clean as your first step to better tasting fried foods. Regular cleaning of your deep fryer will help keep your oil fresh longer and will stop burned-on carbon and grease from contaminating new oil. Frye Clean is specially formulated with a blend of wetting agents, water conditioners, and alkaline chemicals to remove heavy stubborn grease.

DIRECTIONS FOR USE

Directions:

1. Drain grease from fryer and remove any loose debris. Rinse out any excess grease with warm water.
2. Fill fryer with warm water, then add one 8 oz. scoop of Frye Clean to unit. For deep fryers that are not heavily soiled, as little as 1/2 scoop is effective.
3. Bring the solution to a slow rolling boil for 20 minutes.
4. Whisk away loosened carbon and deposits.
5. Drain unit and rinse with clear water. Towel dry.
6. For best results, flush fryer with a mild acid (vinegar) solution to neutralize. (Recommended to prevent breakdown of new oils.)

*Keep from Freezing

**Please consult your ACS sales Representative or call 1-800-889-3489 for additional use directions.*

GENERAL PRODUCT INFORMATION

Description: Fryer Cleaner and Boil Out

Safety: Corrosive. Keep product stored in original container, in an upright position, with container tightly closed. Wear protective clothing, gloves, and eye and face protection.
