LAUNDRY NEUTRALIZER

LAUNDRY NEUTRALIZER is a buffered acid sour and neutralizes all traces of detergent or break alkali. It also contains ingredients designed to combat iron and rust stains. It promotes complete rinsing by solubilizing harsh synthetic and soap wetting agents and thereby enhances the brightness of colors and whites.

Regular use of this neutralizer prolongs fabric life by bringing it back to its natural pH level. Ironer scorch may be eliminated when this neutralizer is added to the pre-rinse cycle.

DIRECTIONS FOR USE

Directions:

Program dispenser to add correct amount of neutralizer with pre-rinse fill. After all items of liquid system are set, run test load for badly soiled and stained linens to observe remarkable cleaning. Check for alkali or acid residue and adjust break or neutralizer as needed.

**Please consult your Sales Representative or call (888) 260-0201 for additional use directions.*
